

## The world's best wakeboarder will fight for more than 100.000 US Dollar cash-prize in Bursa

**In about 4 weeks, from 02. - 04. 10. 2009, the world's best cablewakeboarder will meet for the CWWC Tour Final, in Turkey's 4th largest city, Bursa. The Sukay Park Osmangazi, one of Europe's most beautiful wakeboard parks, was the place for the 2008 European Championships.**

The organization of the highest cash prize event in the history of the CWWC Tour is made by the city administration of Osmangazi. As in 2008, the international operating Agency for sports-communication ID+MA from Germany will be realizing this event. Preparations are in the final stage and the administration anticipates much interest from media and the population.

The finals will be streamed **live on the internet** and classic TV stations have the chance to grab the live signal, too. International media-cooperations are being sorted out right now. 6 cameras will be on location to capture the best pictures, interviews and impressions live from Turkey. The fans at site will be able to watch the action as close as possible on big screens all around the cable.

The registration will be done online at the CWWC's official homepage - [cablewakeboard.net](http://cablewakeboard.net). Riders will find all information on the current rules, the world ranking and the ranking-points on there.

Eligible for entering the competition are only the top-categories which will guarantee a high level of riding. The open as well as the junior categories' standard is extremely high right now which was proofed 4 weeks ago at the 2nd CWWC Tour Stop in Ukkohalla.

The winner of the final stop will be rewarded with a massive **10.000 US Dollar cash prize**. This should make the top rider from abroad, like Tom Foshee, Keith Lidberg or Sam Collins very interested in coming over although they have low expectations for the overall ranking, which still misses some more international registered events overseas. But from 2010 we should expect the top rider's from PAN/AM and A/A to get their chance on the international stage.

The best ranked riders from the **CWWC World Ranking** and the overall winners of the **CWWC Tour** will be rewarded in Turkey too. It is still open and nothing is decided yet. Out of the 20 best ranked riders in the open men category 15 have the chance to improve their ranking money. This means for the top 5 riders that they definitely have to defense their placements within the rest of the season. There are still some registered competitions coming up in Croatia, Germany and the Netherlands which will influence the rankings during september until it goes all or nothing in Bursa in october.

So, on October 2nd, when the first ropes take the riders through the Sukay Park, everyone needs to access their maximum power.

That's the perfect conditions for one of the most tense competitions in cablewakeboarding to be seen live. Wether on location or via live stream - See who is getting the CWWC Rankings' yellow lycra in the end.
